6 I just want to start off by saying that death
7 is a fact of life. Things live and they die.
8 Sometimes not by choice. Things happen. Sometimes we
9 can intervene and sometimes we can't. The situation
10 has me very torn because both parties present a good
11 case. I feel for both constituents on that. But the
12 situation still remains: What are we going to do with
13 the problem? It amazes me that humankind can create
14 such destruction, but yet they never think about what
15 they're going to do with the stuff that gets destroyed.
16 I think this problem is bigger than the state of
17 Nevada, or Utah. It's a nation thing and it needs to
18 be addressed as a nation. People need to band together
19 and come up with a solution of how we're going to treat
20 this situation. Thank you.
